

# Acknowledgment

At other times, a new approach is shown to be lacking before it spreads; thankfully, it dies out before more people fall under its misapprehension. Simply being new is, of course, not automatically superior. Eventually, if a new paradigm indeed makes better sense, the changeover can be worth the effort. We have seen that time and time again.

It has been said, in short, that if you think education is too expensive, remember the cost of ignorance.

In parallel, it might be said that paradigm shifts are often jarring and disruptive. They can be uncomfortable, even disorienting. Yet a paradigm shift is not as costly as failing to change when change is warranted.

*PSCF* offers, in this issue, some proposed new approaches that are well worth the evaluation of our readers. ♦

## 2014 Peer Reviewers

*We wish to thank the following scholars for their crucial service in anonymous peer review.*

Paul Arveson  
Robert Bishop  
Dave Bookless  
Dorothy Boorse  
Hessel Bouma  
Jeanne Bundens  
Dorothy Chappell  
John Clements  
Wayne Cochrane  
Harry Cook  
Janel Curry  
Cal DeWitt  
Chris Farrell  
Paul Fayter  
Marvin Floyd  
Luke Gacho  
Brian Greuel  
Matt Heun  
Carol Hill  
Margot Hodson  
Russ Howell  
Randy Isaac

Gareth Jones  
Grace Ju  
Dan Lindstrom  
Tremper Longman  
Heather Looy  
Keri McFarlane  
Sara Miles  
Larry Molnar  
Jonathan Moo  
Stephen Moshier  
George Murphy  
Alan Padgett  
Ken Piers
